

# Difference overview of Cloud vs On-Premise

Please see below summarized information about the WebSpellChecker usage limitations and pricing policy. The following pricing model gives you more flexibility and control over how you use our products. You can choose the appropriate Cloud plan and use as much or as little as you need.

|                                    | Cloud pricing plans (WProofreader SDK & API, SCAYT plugin)                                                                                                                                                                                                                                                                                                                                                                                                                                              | On-Premise version (full set of products)                                                                                                                                                                                                                                                                                                                                                       |
