

Caching

- Can we control the cache limit? Is it configurable?
- Can we turn off/on the cache?
- How do I enable caching different from the default 10 MB of cache on AppServer for 10000 suggestions?
- Is caching applicable for both Spelling check and Grammar check? Do you have different cache limit for these features?
- Is the cache limit size in MB specified per locale or is it an overall amount?
- Which caching strategy do you use? Are LRU or LFU strategies supported?
